2 Math Formulas

- `\mid` vs `\middle|`: *https://tex.stackexchange.com/questions/181091/middle-too-big*

$$\mathbb{E}\left[\frac{f(X)}{g(X)} \mid X\right] \qquad \mathbb{E}\left[\frac{f(X)}{g(X)}\middle| X\right]$$

3 Tips

- strikethrough text: ~~hello, world!~~, required package 'soul'. See also: https://tex.stackexchange.com/questions/23711/strikethrough-text

- accent characters: ò, ó, ô, ö. See also: https://en.wikibooks.org/wiki/LaTeX/Special_Characters
